

## THE BEST IN THE BUSINESS.

For more than 50 years, Roto Hammer® has been one of the top manufacturers of industrial chain wheels, extension controls, floor stands and specialized accessories for efficient valve operations worldwide. Major industrial, chemical, manufacturing, refining, nuclear and other facilities in this country and abroad rely on Roto Hammer products to keep their plants running safely and smoothly.

Our internal processes ensure that every part we produce conforms to strict quality assurance standards. And “internal” is key. Under the direct guidance of our management team, Roto Hammer manufactures all the products we stock and sell in-house at our Tulsa, Oklahoma, operations center.

This commitment to product quality extends to excellence in customer service, too. When you call Roto Hammer, you’ll receive immediate assistance from a trained customer service representative. We value your time and your business, and it shows.

# GO AHEAD, THROW US A CURVE.

**CUSTOM SOLUTIONS FOR  
VALVE OPERATIONS.**

## THIS IS WHAT WE DO.

Proven performance. Durability. Toughness. And now, the agility to quickly, efficiently and effectively handle any site-specific manual valve operation challenge you can throw at us. We're proud to announce the expansion of our custom solutions line. Expert configuration of off-the-shelf parts to handle your unique manual valve operations demands.

## WE THINK ON OUR FEET.

Regardless of the distance between points, elevations, directional flows and space constraints, we can engineer a Roto Hammer® valve operation system that will work for you. No company can afford downtime, and with our custom valve solutions, you'll be back up and running sooner. Turnaround for most applications averages less than one week. And when you call us, you'll speak directly with Roto Hammer's management team, experts in the field.

Roto Hammer Valve Extension using an array of Hand Wheels, Impactors, Universal Joints, Gear Boxes, Slip Joints and Support Bearings.

## GET IT DONE.

Straightforward. Simple. You need a custom valve operations solution that will keep your facility on line and stay in line with your budget. With the variety of products we stock and our experience in the trenches, no other supplier compares to Roto Hammer. We'll get the job done right. On time. With the highest level of quality and customer satisfaction. If you'd like more information on our custom valve operations solutions, we'd be pleased to talk with you.
